

# Axial conveyor LFA 1 - 5

## **Conveyor for feeding parts in one direction**

All five available sizes have an adjustable vibrating system to adapt the system to feeding-rail of different weights without changing parts.

The conveyors LFA 1 - LFA 4 are usable with an inverter or any motor phase control at mains power 230V, 50Hz.

The conveyor LFA 5 has to be supplied with 25 Hz.
