

Torsiontester TG-11

Picture: TG 11 Torsiontester

Torque ranges: Model up to 150 Nm

Torquerange:	Resolution:
range 1: 0 - 19.99 Nm	0.01 Nm
range 2: 0 - 150.0 Nm	0.10 Nm

max. distance of plates 800 mm
max. diameter 600 mm

Torsion tester **TG 11** for inspection of left and right coiled torsion springs. 3 1/2 digit torque display and 5 digit angle display. The angle is on display with 3600 steps per round what is a resolution of 0.1 degree. Maximum angle is 9999.9 degree. The tester has two stops for two test positions for batch tests. The tester has a RS 232 data output for the torque to connect with a statistic computer or SPC system.
