

Torsiontester TG-8

Picture: TG 8 Torsiontester

Torque ranges: Model up to 100 Ncm

Model up to 200 Ncm

	Ranges	100 Ncm	Resolution	200 Ncm	Resolution
range 1:	100 Ncm	0.1 Ncm	200 Ncm	0.1 Ncm	
range 2:	20 Ncm	0.01 Ncm	20 Ncm	0.01 Ncm	
range 3:	2 Ncm	0.001 Ncm	2 Ncm	0.001 Ncm	

Torsion tester **TG 8** for inspection of left and right coiled torsion springs. 3 1/2 digit torque display and 5 digit angle display. The angle is on display with 3600 steps per round what is a resolution of 0.1 degree. Maximum angle is 9999.9 degree. The tester has two stops for two test positions for batch tests. The tester has a RS 232 data output for the torque to connect with a statistic computer or SPC system PC based.
