

Torsiontester TG-9

Picture: TG 9 Torsiontester

Torque ranges: Model up to 500 Ncm Model up to 1000 Ncm

	Ranges	500 Ncm	Resolution	1000 Ncm	Resolution
range 1:	500 Ncm	1 Ncm	1000 Ncm	1 Ncm	
range 2:	200 Ncm	0,1 Ncm	200 Ncm	0,1 Ncm	
range 3:	20 Ncm	0,01 Ncm	20 Ncm	0,01 Ncm	

Torsion tester **TG 9** for inspection of left and right coiled torsion springs. 3 1/2 digit torque display and 5 digit angle display. The angle is on display with 3600 steps per round what is a resolution of 0.1 degree. Maximum angle is 9999.9 degree. The tester has two stops for two test positions for batch tests. The tester has a RS 232 data output for the torque to connect with a statistic computer or SPC system PC based.
